Dear Honourable Member of Parliament,

It is with profound sadness that we present you with the enclosed *Abortion World Wide Report* as it documents the utter failure of nations, including our own, to love and protect our most vulnerable citizens.

It is incomprehensible to us that in the last century over 1 billion children have been killed in the womb by abortion around the world. Sadly, between 1969 -2016, Canada has allowed the slaughter of 4,079,264, of her little ones, leaving their mothers open to the harm that follows for many of them.

We sincerely hope that these staggering numbers may awaken in your heart and our federal representatives a willingness to seek other ways to help women who are experiencing unexpected pregnancy, than induced abortion.

On behalf of the board of Alliance for Life Ontario and its 55 member groups, I respectfully call upon you to legally protect human life from its biological beginnings.

Sincerely,

Mrs Jakki Jeffs

Executive Director
